] ,	A hangar accommodating approximately six PE-2 planes is located in the northern part of the former Wiener-Neustadt aircraft factory simfield in the immediate vicinity of Theresienfeld, about 150 yards east of the Wiener-Neustadt - Theresienfeld road. Four twin-engine planes believed to be PE-2s, were parked in front of the hangar; they had a double tail unit, V-shaped elevator assembly and airfoils. One twin-engine plane with three-blade					
	propellers was seen being done there.	is. One twin-engine plainside the hangar. Ela	ane with three-blade actric welding was
